

For The People – Site Guide

Navigation – The navigation is self-explanatory; you can click on each element, and it will take you to the respective page. The currently selected page is highlighted. This navigation also has a sub-navigation, revealed by clicking on "Our Goals".

Sub-Navigation – Upon clicking the Our Goals button, a sub-navigation bar will reveal itself, this is used to navigate each of the goals page, clicking on one of these goals will take you to the respective page

Mobile Navigation – When on a smaller screen, the site will display the hamburger in the top left. Clicking/tapping on this icon will bring down a drop-down navigation that can be operated in a similar manner to the desktop navigation, however it forgoes the sub-navigation to prevent clutter and promote simplicity for an already limited display size.

Form Input and Submission –

On the newsletter page, there is a form. Form data can be input by clicking inside each text field within the form element. Once completed, clicking on the sign up button will submit the form data. Submitting the form data will upload the input data to the server, and take you to a confirmation page, showing that your data was successfully saves to the server. Type-checking is applied to the email field, thus a valid email format must be input in order

to submit the form.

Clickable Images – On each of the goals page, there are clickable images, these images have associated information that can be revealed underneath the image upon clicking them
